# EXTERIOR WOOD CLEANER

### DESCRIPTION:

**Rubio Monocoat Exterior Wood Cleaner** is used to clean exterior wooden surfaces, including: decks, fences, doors, siding, furniture, etc. The wood cleaner removes grey discoloration, mildew stains and dirt and opens the wood pores for maximum product penetration.

### DIRECTIONS FOR USE:

1. Dampen the surface with water, using a garden hose if possible.
2. Apply the ready-to-use **Monocoat Exterior Wood Cleaner** using a stiff bristled brush.  
For light cleaning, the product can be diluted with water at a ratio of 1:2.
3. Scrub the treated area with the scrubbing brush working length-wise along the wood until it is clean.  
With larger decks, to speed up the process, scrubbing can be done with a black pad under a buffer.  
For stubborn stains, repeat the treatment.
4. Rinse thoroughly with water until all of the foam has been washed away.
5. Allow the surface to dry completely.
6. Treat with the **Monocoat Hybrid Wood Protector**.

Do not use this product on Padouk.

### USAGE:

Undiluted: +/-100 s.f./liter with a brush; +/- 200 s.f./liter with a buffer & black pad

Diluted: +/- 200 s.f./liter with a brush; +/- 400 s.f./liter with a buffer & black pad

### TECHNICAL CHARACTERISTICS:

Physical state at 20 °C: liquid.

Color: clear.

Final boiling point [°C]: 213 °C

Density [kg/m<sup>3</sup>]: 0,7 (15 °C)

Viscosity: 1,67 mm<sup>2</sup>/s (25°C)

Solubility in water: < 0,10 %

Flash point [°C]: > 62 °C

### STORAGE:

The product can be stored for up to 12 months in a dry place and in the original packaging.

### PACKAGING:

1 & 5 liter can.

**Do not allow to freezing.**
